# ARTIFICIAL INTELLIGENCE

## ABOUT US

The Artificial Intelligence Business Conference was created to help business and technology executives cut through the hype, and learn how they can use AI to create competitive advantage, drive new business opportunities and foster innovation.

## WHY CHOOSE US?

- ✓ South Africa's leading event focused on the impact of AI on business.
- ✓ Visionary speakers - Local and global authorities will provide insights into key trends, opportunities and challenges.
- ✓ Networking program - Extensive networking program where business leaders and key decision makers can build relationships.

## OUR ADVANTAGE

### INNOVATION

Engage with the industry's leading solution providers, spearheading innovation in AI research and product development.

### INSIGHTS

Get practical technical insights on technical sessions geared for Artificial Intelligence Businesses by the world's leading AI experts.

### NETWORKING

Experience our Intelligent Networking Service, a real-life application of AI combined with the human touch that delivers unrivalled results in networking among attendees.

# Overview

Beyond the hype, Artificial Intelligence is already delivering real value in business. It's being implemented across all industries and business functions creating unprecedented efficiencies in human productivity. Now our very own Artificial Intelligence Business Conference is one of South Africa's largest conference & exhibitions to look at the practical implications of AI for enterprise organisations, the actual solutions that are transforming business productivity.

The quality of our conference exhibition is unrivalled – you will hear exclusive, inspirational presentations from acclaimed speakers representing the world's leading enterprises. They share a platform that highlights both AI business strategy and technical know-how in a comprehensive agenda that goes beyond the mundane and into deep, actionable insights. This AI Business Conference aims to help the business leader, data scientist and engineer successfully implement their AI projects.

# 2019 April 11
